upon a **PERFECTLY PAINLESS** system, and by the most modern improvements in surgical and mechanical dentistry, **DETECTION** is rendered **IMPOSSIBLE**.

By this **NEW** and **IMPROVED** method of construction, **MASTICATION** and **ARTICULATION** are rendered **PERFECT**, **NATURAL**, and **EASY**, while extreme **LIGHTNESS** combined with **STRENGTH** and **DURABILITY** is ensured.

The **SUCCESS** of this new system is giving every satisfaction.

We **GUARANTEE** success in the most difficult cases, and do not allow any Artificial work to leave our Surgery unless the **PATIENT** and **OURSELVES** are perfectly satisfied.

Country patients having teeth extracted can have them **TEMPORARILY** replaced without any delay, **WITHOUT** extra charge.

Those wearing full or part sets made by other dentists can have them **REMODELLED** to our new principle at small cost.

MESSRS MYERS wish it to be distinctly understood that all their work is of the best **CONSTRUCTION** and **MATERIAL**, and wishing their **NEW METHOD** of Artificial Dentistry to become popular, the **FEEES** are made strictly moderate.

Painless Dentistry.

MR. S. MYERS having administered **NITROUS OXIDE GAS** almost daily for over seven years, can with confidence recommend it as an **INVALUABLE** and **SAFE** Anæsthetic, free from any after bad effect.

MESSRS MYERS have succeeded in preparing a **LOCAL ANÆSTHETIC** which in all cases **ANNULS** and in many completely **DEADENS** pain during the extraction of teeth
